Snap Cube Shapes

About:

Thank you so much for downloading this product! We hope it will be a great resource for you and that you will love it as much as we do! Please don't hesitate to contact us if you have any questions or concerns. We're here to help in any way we can.

Our Snap Cube Shapes focus on shape identification, shape formation, handwriting, and fine motor skills! We love using hands-on materials when we're learning. Our children stay engaged and having fun! In this activity, they will put the snap cubes together in the same shape on the mat. They will then trace the shapes on the page. It corresponds to Common Core Standards K.G.A.2 and K.G.B.5 as children name and draw shapes.

Please note the directions contain affiliate links.

Prep:

Step 1: Print pages 5-9 in color or pages 10-14 in black and white.

Step 2: Laminate the pages and either leave them whole or cut them in half.

Step 3: Gather [snap cubes](#) and [whiteboard markers](#)!

Directions:

Step 1: Place the mat on the table that you would like to complete. Say the name of the shape.

Step 2: Make the shape on the page by connecting the snap cubes in the same pattern as the page. For the colored shape mats, connect the cubes in the same color and shape as the mat. For the black and white shape mats, you can use any color snap cube you would like.

Step 3: Trace the shapes at the bottom of the page with a whiteboard marker.
